DODGE COUNTY FARMERS FOR HEALTHY SOIL/HEALTHY WATER FIELD EVENT

COFFEE, COVERS, CATTLE, AND DONUTS TOO!

DRONE SEEDING INTO SOYBEANS AND GRAZING CATTLE ON COVERS

The Dodge County Farmers for Healthy Soil/Healthy Waters group will be hosting a pop-up field day on Friday morning, November 13. We will be looking at a research plot of covers seeded with a drone into soybeans, comparing species mixes and seeding dates. We will also view and discuss several examples of multispecies covers used for grazing cattle. Come join us for some coffee and donuts and good discussion, and you can still get a good day of combining or cover crop seeding in! We will be viewing several fields so some walking will be required.

LOCATION:

Gaska Farms

W11236 Breyer Rd., Columbus, WI 53925

TIME:

8:00 a.m. until the discussion ends
